

Organic Cane Molasses

Description: Organic Cane molasses is a by-product consisting of the syrupy residue that is collected during the manufacture or refining of organic sugar from organic sugar cane. It is characterised by its excellent palatability, high energy content and its flexibility of use.

Typical Analysis (Dry Matter Basis):

Dry Matter	72%
ME	12.5 MJ/kg
Crude Protein	6.4%
Sugars	67.0%
Fibre	Nil
Oil	Trace
Ash	10.3%
Calcium	0.9%
Magnesium	0.4%
Phosphorus	0.05%
Potassium	3.2%
Sodium	0.1%
Litres/tonne	714

Feeding Guidelines: Organic Cane molasses is a flexible nutritious feed. It can be fed in a diet feeder as part of a TMR, top-dressed on forages or mixed with a variety of dry feeds. Furthermore, it also complements grass-based diets, where its rapidly digestible sugars are an ideal balancer to the highly degradable protein in the forage.

Dairy Cows: Up to 3kg (normal 1-2kg) per head per day or 15% of the total diet mix.

Beef Cattle: Up to 2.5kg (normal 1-2 kg) per head per day or 15% of the total diet mix.

Young Cattle: Up to 1.5kg or 5% of the total diet mix.

Sheep: Lambs 10% of diet (0.4 kg per head per day) and ewes 15% of diet (0.8kg per head per day).

Key Benefits:

- ✓ Excellent palatability;
- ✓ Rich in sugars;
- ✓ Promotes higher dry matter intake;
- ✓ Good source of calcium;
- ✓ Reduces dust in home-mixed rations;
- ✓ Excellent ability to bind ingredients and prevent separation.

Storage: Can be safely stored in vented waterproof tanks for up to 6 months.

Delivery: Organic Cane molasses is available in bulk deliveries nationwide, ranging from 10 up to 28 tonnes. Also available in IBC's (mini bulk tank) of approximately 1.25 tonnes.
