

Delivery and Handling Methods

Stainless Steel Road Tankers

Bulk deliveries of minimum 10 tonnes.

IBC'S (Mini Bulk Tank)

Will hold approximately 1.25 tonnes of Molasses.

Hydraulic Pump

Powered by tractor and allows Molasses to be either sprayed onto a silage pit or pumped into a diet feed wagon from either a storage tank or IBC.

Available from:

Clarke Pumps at 041-6854189.

Lick Wheel Feeders

Allows Molasses to be fed directly to animals.

Available from:

Sturdy Products at 045-865044.

Benefits of Molasses as an Animal Feed

1. Studies have shown that feeding Molasses to dairy cows improves milk protein.
2. Extremely palatable feed, containing up to 50% sugars.
3. Suitable for dairy cows, beef cattle, sheep, horses and pigs.
4. Can be fed straight or mixed with total diet feed mixtures.
5. Molasses improves palatability, reduces dustiness and increases total dry matter intake.
6. As a by-product of sugar production, Molasses contains no anti-nutritional factors or toxins.
7. Can be safely stored over prolonged periods in waterproof tanks.
