

Premier Glycerine

Description: Glycerine is a colourless, odourless, sweet tasting, energy dense liquid that is a co-product of biofuel production from vegetable oil. Researchers have determined that the net energy value of glycerine in sheep, beef cattle and dairy cows was equal to or greater than that of corn grain. Glycerine can help improve energy supply to high yielding dairy cows, both before and after calving, and thereby have an impact on health and performance during the entire lactation.

Typical Analysis (Dry Matter Basis):

Dry Matter	83.5%
ME	18.0 mj/kg
Crude Protein	2.0% (± 1.5%)
Sugars (as sucrose)	1.0 (± 2%)
Fibre	Nil
Oil	0.2%
Ash	5.0% (± 2%)
Calcium	-
Magnesium	-
Phosphorus	-
Potassium	-
Sodium	-

Physical Properties:

Specific Gravity	1.30
Viscosity (cp at 20°C)	1750
Ph.	5.3
Litres/tonne	769
Gallons/tonne	171

Appearance: Clear odourless syrupy liquid.

Storage: Can be safely stored in vented waterproof tanks for up to 6 months.

Key Benefits:

- ✓ Counteracts any nutritional imbalance occurring in early lactation;
- ✓ Increases water intakes;
- ✓ Excellent glycogenic precursor;
- ✓ Good palatability;
- ✓ Positive effect on animal performance;
- ✓ Compatible with liquid feed milking parlours and robotic milking machines.

Delivery: Glycerine is available in IBC deliveries nationwide, ranging from 1 up to 1.3 tonnes.
