

# Cane Molasses

**Description:** The original high energy feed! Cane molasses is a by-product consisting of the syrupy residue collected during the manufacture or refining of sugar from sugar cane. Characterised by its excellent palatability and flexibility of use.

## Typical Analysis (Dry Matter Basis):

Dry Matter	73%
ME	12.2 MJ/kg
Crude Protein	5.0% (± 2%)
Sugars	61.0% (± 2%)
Fibre	Nil
Oil	Trace
Ash	11.0% (± 2%)
Calcium	1.5%
Magnesium	0.5%
Phosphorus	0.1%
Potassium	3.8%
Sodium	0.2%
Litres/tonne	714

**Feeding Guidelines:** Cane molasses is a very flexible and nutritious feed. It can be top-dressed on forages, mixed with dry feeds or fed in a diet feeder as part of the TMR. A good complement to grass-based diets, where its rapidly digestible sugars are an ideal balancer to the highly degradable protein in the forage.

**Dairy Cows:** Up to 3kg (normal 1-2kg) per head per day or 15% of the total diet mix.

**Beef Cattle:** Up to 2.5kg (normal 1-2 kg) per head per day or 15% of the total diet mix.

**Young Cattle:** Up to 1.5kg or 5% of the total diet mix.

**Sheep:** Lambs 10% of diet (0.4 kg per head per day) and ewes 15% of diet (0.8kg per head per day).

## Key Benefits:

- ✓ Excellent palatability;
- ✓ Rich in sugars;
- ✓ High dry matter;
- ✓ Improves protein utilisation in grass diets;
- ✓ Improves forage intake;
- ✓ Good source of calcium.

**Storage:** Can be safely stored in vented waterproof tanks for up to 6 months.

**Delivery:** Cane molasses is available in bulk deliveries nationwide, ranging from 10 up to 28 tonnes. Also available in IBC's (mini bulk tank) of approximately 1.25 tonnes.
